

Parent's Guide: How Do I Help My Middle School Child with Science Fair Projects?

How can you use SchoolRooms to find information that supports parents and students with learning? Parents can use resources found in SchoolRooms to discover homework help, get information on family health and social issues, learn about testing in schools, and more!

How do I help my child find a science fair project?

The same process for searching for science fair projects will work with other age groups and homework needs.

You can find resources in several ways within SchoolRooms. Try searching for keywords such as science fair projects, scientific method, and science experiments.

You can also find great information by browsing. Here is a list of topics with several Rooms that link to informative and reputable resources. Start with the Middle School link on the left side of the screen, under the title "Explore a Room". Once your child chooses a project, you can use the three Science Rooms to discover additional information about the topics.

Middle School

- Scientific Process & Technology -> Scientific Inquiry -> Science Fair Project
- Scientific Process & Technology -> Scientific Inquiry -> Using Inquiry Skills (try the Inquiry Skills box)

Middle School

- Earth Science
- Life Science
- Physical Science
